

SULEMAN KHAN

React.js Developer | Frontend Engineer

Kurla, Mumbai, MH, India | +91 9372769176 | sulemandev04@gmail.com | linkedin.com/in/suleman-khan-dev

PROFESSIONAL SUMMARY

Performance-driven React.js Developer with over 1.5 years of experience engineering high-performance, scalable, and responsive Single-Page Applications (SPA) and Server-Side Rendered (SSR) web applications at Infispark. Proficient in optimizing Core Web Vitals, building role-based dashboards (RBAC), and developing secure, clean component architectures. Expert in integrating dynamic user interfaces with RESTful APIs, Axios, Supabase, and relational database systems to deliver seamless user experiences.

TECHNICAL SKILLS

- **Frontend Development:** React.js, Next.js, JavaScript (ES6+), TypeScript, HTML5, CSS3, Tailwind CSS, Jest, Front-end development, user interface design
- **State & Session Management:** Redux Toolkit, Context API, Secure Token Tracking, OAuth / Auth Systems
- **Backend & Database Integration:** Supabase, PostgreSQL, RESTful APIs, Axios, CRUD Operations, Real-time Data Sync
- **Architecture & UI/UX:** Component-Driven Architecture, Protected Routing (RBAC), Mobile-First Responsive Design, Core Web Vitals Optimization
- **Developer Tools & Methodologies:** Git, GitHub, VS Code, Postman, Chrome DevTools, Agile/Scrum

PROFESSIONAL EXPERIENCE

Frontend Web Developer | Infispark, Mumbai, India

Dec 2024 – Present

- Architected high-performance SPA and SSR web applications, improving client-side loading metrics by 25% and maximizing search engine indexability.
- Engineered robust shopping layers, encompassing interactive carts, persistent Wishlists, dynamic multi-attribute filtering, and secure checkout workflows using Axios for reliable API operations.
- Implemented secure user authentication, token-driven session handling, multi-route access protection, and real-time database synchronizations to eliminate data lag.
- Constructed scalable, component-driven UI structures using React Hooks and Tailwind CSS, reducing codebase overhead and accelerating future feature engineering cycles by 30%.
- Orchestrated seamless integration of complex RESTful APIs for asynchronous data binding, ensuring pixel-perfect, mobile-first responsiveness across all device form factors.

TECHNICAL PROJECTS

E-Commerce Web Application Platform | Next.js, React.js, Supabase, Axios, Tailwind CSS

- Developed a lightning-fast, Next.js server-rendered landing page focusing directly on optimizing multi-device Core Web Vitals (LCP, FID, CLS).
- Designed an interactive store catalog configured with instant product filtering UI and continuous real-time data syncs via Supabase client subscriptions.

- Created a secure client record dashboard using Supabase Auth to accurately monitor historical transactions and unique user profiles.

Hospital Management System (HMS) / *Next.js, React.js, Supabase, Tailwind CSS*

- Owned end-to-end frontend module logic to completely streamline complex outer-patient records and medical coordinator schedules.
- Programmed a highly responsive slot allocation calendar that optimized healthcare tracking and decreased outpatient desk wait times.
- Crafted secure, multi-field prescription and health forms enabling medical personnel to parse and update real-time patient histories securely.
- Configured efficient PostgreSQL queries inside Supabase to securely render structured data arrays instantly during active user sessions.

EDUCATION

Bachelor of Engineering (B.E.) in Computer Science

Mumbai University / Indian Institution

Graduated: June 2024
